MicroProfile

-  = New
-  = Updated
-  = No change from last release (MicroProfile 3.0)

Agenda

API <-> SPI

POJOs

developer choice vs. business decisions

multi-vendor community

documentation resources

stability and compatibility

observability

airhacks.live

new online, live virtual workshops

"like airhacks.com, without leaving your home"

You don't like virtual workshops? See you at MUC airport: airhacks.com

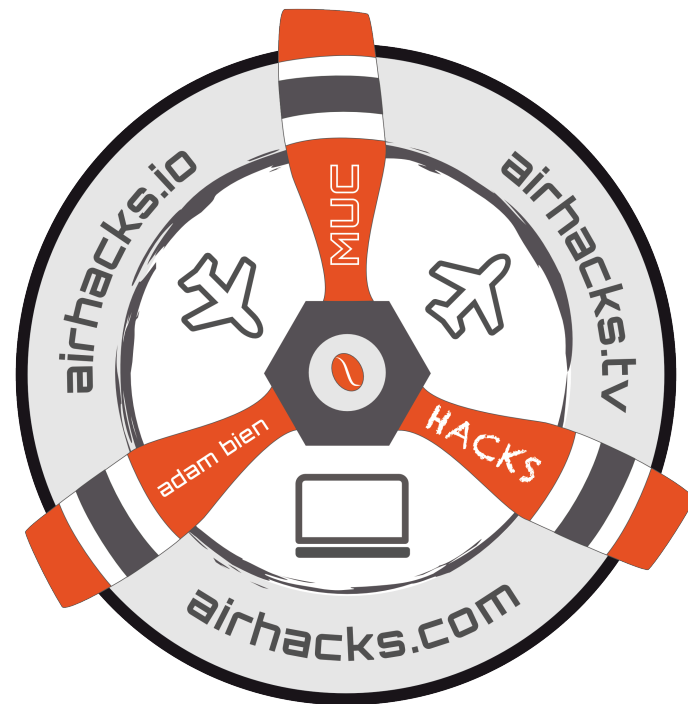

>> building applications with native web components, redux and lit-html

Quickly build real world applications with Web Components, state management, routing, partial rendering, 3rd-party web components, data binding, server-side communication, long running actions, error handling, form validation, unit testing and flex / grid layouts.

Learn once, never migrate #usetheplatform

July 9th, 2020, from 10am to 5pm CEST

Thank You!
